# **Pupil premium strategy statement**

This statement details our school's use of pupil premium funding to help improve the attainment of our less advantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

## **School overview**

Detail	Data
School name	Ryefield Primary School
Number of pupils in school	408
Proportion (%) of pupil premium eligible pupils	21%
Academic year/years that our current pupil premium strategy plan covers	2022 to 2025 - 3 years
Date this statement was published	31/12/2024
Date on which it will be reviewed	September 2025
Statement authorised by	Colin Tucker
Pupil premium lead	Wayne Murray
Governor / Trustee lead	Gurjit Kharbanda

# **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year	£142,080
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£O
Total budget for this academic year	£142,080
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

# Part A: Pupil premium strategy plan

## Statement of intent

All members of staff and the governing body are committed to meeting the needs of less advantaged pupils pastorally, socially and academically within a caring and nurturing environment. In order to be highly successful in improving achievement for the children eligible for pupil premium, staff at Ryefield:

- analyse which pupils are underachieving, particularly in English and Mathematics, and why;
- use data frequently to check whether interventions or strategies are working and make adjustments accordingly, rather than using the data retrospectively to see if something has worked;
- draw on research evidence (such as the Sutton Trust Toolkit) and evidence from our own and others' experiences to allocate the funding to the activities that were most likely to have significant impact on improving achievement;
- ensure that all day-to-day teaching meets the needs of each learner, rather than relying on interventions to compensate for teaching that is less than good (quality First Teaching is a priority);
- develop good literacy skills (whole school focus) as levels of progress and attainment are carefully tracked and monitored across the school (pupils with low literacy levels are provided with additional support so that basic skills can be developed effectively; for less advantaged pupils with literacy difficulties, the Pupil Premium funding is used to meet their individual needs in order to remove this barrier to learning);
- ensure that class and subject teachers know which pupils are eligible for the Pupil Premium so that they can take responsibility for accelerating their progress;
- give pupils clear, useful feedback about their work, and ways that they could improve it;
- monitor attendance levels for all less advantaged pupils.

### **Ultimate Objectives**

For all less advantaged pupils in school to reach or exceed Age Related Expectation at the end of Key Stage 2.

To provide a broad curriculum that enables less advantaged pupils to access a breadth of experiences.

# Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Weak Language and Communication skills
2	Low attainment on entry to the Early Years Foundation Stage in all areas.
3	Attendance – the gap, although narrowing over the last three years, between the attendance of pupil premium students and non-pupil premium students remains.
4	Lack of resources – especially regarding access to technology.
5	Reduced opportunity to raise cultural capital

## **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved (note: disadvantaged pupils is abbreviated to DA):

Intended outcome	Success criteria
Attendance – Improve rates of attendance for DA pupils.	Attendance data indicates that the gap to national closes year on year.
Narrow the gap between Less advantaged pupils and advantaged pupils in KS2 at EXS+ for RWM.	Pupil data from the end of KS2 shows an upward trend of less advantaged pupils achieving EXP or GDS standard over 3 years.
Literacy – Pupils achieving GLS or EXS at the end of their phase continue to achieve at expected level or higher in Writing or Reading.	Pupil data from the end of KS2 shows that DA pupils have maintained or improved on prior attainment.
	Three year increase in the Y1 pass rate for the phonics screening test using Read Write Inc with pupils achieving above national expectations by the third year of implementation.
Well-being – Attitudinal survey to school and self shows that DA pupils are in line with, or better than, non DA pupils.	Using the <u>PASS survey</u> , Da Pupils, as a percentage, are inline with non-Da pupils in the 21st to 100th percentile.

# Activity in this academic year

This details how we intend to spend our pupil premium **this academic year** to address the challenges listed above.

## **Teaching (for example, CPD, recruitment and retention)**

Budgeted cost: £22,247

Activity	Evidence that supports this approach	Challenge number(s) addressed
Professional Development For middle leaders to develop a deeper understanding of tracking and monitoring marginal children.	High-quality PD for teachers has a significant effect on pupils' learning outcomes. PD programmes have the potential to close the gap between beginner and more experienced teachers. Evidence suggests that quality PD has a greater effect on pupil attainment than other interventions schools may consider. (The Education Policy Institute, 2020) We aim for phase leaders to have oversight of the progress made across RWM.	1,2
Adopt the Visible Learning+ programme	The Visible Learning+ whole school programme provides a long-term, sustainable solution. It aims to improve student learning and achievement through a model of professional learning designed to implement the research of Professor John Hattie. Over the course of three years (we are now in the final year), the Visible Learning+ programme will enable us to build a foundation of knowledge and create plans for continued success by collecting and evaluating data to inform decision-making, and systematically embed high-effect strategies to ensure sustainability.	1,2,3,4,5
Develop a whole school approach to raising standards in Reading. CPD: improve standards in Literacy across the	A whole school approach to improving standards in reading must be underpinned by a thorough understanding of how we can support pupils in our classes. Training to be delivered via Centre for Literacy in	1,2

whole school by providing ongoing training in both Read Write Inc and	Primary Education (CLPE) for CPD, resources and further guidance.	
Opening Doors approaches	We will use funding for staff training, purchasing resources, additional reading resources.	
Continue with PiXL Club to access resources that identify gaps and provide resources to improve attainment and progress.	Taking account of prior knowledge is essential if pupils' learning needs are to be met. Anticipating common misconceptions, and using diagnostic assessment to uncover them, forms an important part of this process. (EEF on use of Diagnostic Assessment) The PiXL Club aims to support the promotion of excellence for pupils. One of the strategic	1,2,4
	approaches PiXL promote within every day teaching is through effective use of data to sharpen the focus on the key gaps in students learning, and then the implementation of specific personalised intervention for each student to enhance standards. This is achieved through, what PiXL term, DTT (diagnosis, therapy and testing) and is essentially a cohesive formalised AfL approach across a department and the whole school.	
Implement and utilise Collaborative Learning techniques.	The EEF toolkit states that collaborative learning has 'very high impact for low cost'.	1,2,3,5
	We use Kagan techniques to ensure that pupils acquire social skills due to the cooperative nature of Kagan methods, develop increased confidence and retain interest in classroom interaction.	
Use of Speech and Language screening: Speechlink - to screen all children on entry to Reception and put bespoke programmes in	On entry to Reception, a large proportion of children have low Communication and Language skills. We work closely with the SaLT (Speech and Language Therapist) to put class-based provision in place to support all children in	1,2
place.	the cohort as well as specific interventions for those working below age-related expectation.	
Support the effective catch up of pupils by	To participate in the Mathematics Mastery CPD offered via the Maths Hub.	2

upskilling staff in Mathematics Mastery.	To accelerate pupil progress and ensure that there is no slippage around the expectations of fluency and proficiency in mathematics. Teachers will have more time to tailor programmes to pupils who require specific, focussed work. Specifically, year 5 and 6 teachers will develop the necessary skills needed to ensure that Disadvantaged pupils are prepared for Key Stage 3.	
Purchase of Chromebooks and Tablets	The Education Endowment Foundation states in <u>Remote Learning: Rapid Evidence</u> <u>Assessment April 2020</u> that 'Ensuring access to technology is key, particularly for disadvantaged pupils. Almost all remote learning uses digital technology, typically requiring access to both computers and the internet. Lack of technology is a barrier to successful remote instruction. It is important that support is provided to ensure that disadvantaged pupils – who are more likely to face these barriers – have access to technology.' As homework is increasingly making use of digital devices and online learning platforms, it is important that Disadvantaged pupils can acquire the skills they need to utilise these technologies. The school will provide repurposed PCs running Chromium OS to vulnerable pupils.	4,5

# Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £59,462

Activity	Evidence that supports this approach	Challenge number(s) addressed
Raise standards in Reading and Writing across the school Facilitate smaller group sizes in the core subjects.	The EEF states: 'The best available evidence indicates that great teaching is the most important lever schools have to improve pupil attainment' and that 'approaches such as explicit instruction, scaffolding and flexible grouping are all key components of high-quality teaching and learning for pupils'. We aim, through the deployment of a literacy support teacher, to ensure that less advantaged pupils make progress that is at	1, 2
	least in line with Non PPrem pupils with a similar starting point. We have also used Read Write Inc in Key Stage 1 to provide a rigorous and structured phonics programme that accelerates reading fluency and gives teachers the confidence and skills to deliver high quality teaching every day.	
Bespoke subject specific exercise books to facilitate retention of long-term knowledge, reduction of cognitive load, formative and summative assessment.	To ensure that the school is well-placed to deliver a sequenced curriculum that enables pupils to retain/consolidate information and build upon prior learning: 'The school's curriculum is planned and sequenced so that new knowledge and skills build on what has been taught before, and towards those defined end points'. (Ofsted framework – Curriculum intent)	2,4
	(We use bespoke subject specific exercise books science and humanities. We will need to restock these and make amendments to the science books.)	
To improve fluency and accuracy in the application of mental arithmetic.	The EEF states in section 4 of <u>Improving</u> <u>Mathematics in Key Stages 2 and 3</u> that pupils need to develop a rich network of mathematical knowledge by developing fluent recall of facts.	2

	In view of this fact, we will maintain the 20:20, 100, and 144 clubs (aimed at developing rapid recall of multiplication tables facts through regular practice). Celebration and high status will be given to improvement and accuracy in mental arithmetic, including success in using Times Tables Rock Stars online. Additionally, monitoring of the early morning work during soft start will be carried out in light of the recently adjusted timetable being used to facilitate mathematical fluency.	
	We aim for pupils in KS1 to be confident in the addition and subtraction facts to 100 and outcomes at the end of Y4 in the multiplication check to be in line with the emerging national picture.	
RM Easimaths	Education Endowment Foundation research identifies strategies for improving maths outcomes, including: Develop pupils' independence and motivation: RM Easimaths provides immediate incentives to complete each session with certificates, stickers and end- of-session games. Use targeted support to help all children learn maths: RM Easimaths uses data from each session to adapt future sessions to each pupil's individual needs. Use structured interventions to provide additional support: RM Easimaths provides statistics and reports to measure and demonstrate progress; and identify areas for improvement. The resource will be used mainly as 1:1 intervention providing us with a comprehensive suite of maths support packages - MyMaths is more suited to whole class teaching and LBQ covers the whole curriculum encouraging self/peer	2,4
Targeted tuition.	study. The EEF state that 1:1 tuition has 'High impact for moderate cost based on moderate evidence' and that 'Tuition is more likely to make an impact if it is additional to and explicitly linked with normal lessons'.	2,4

	Small group tuition with tailored tutoring in maths based on gaps identified through, mainly, PIXL assessments will be delivered to pupils in years 6 throughout the year.	
Annual subscription to Learning by Questions (LBQ).	The Education Endowment Foundation states in the <u>Using Digital Technology to</u> <u>Improve Learning Guidance Report</u> that 'technology can be used to improve the quality of explanations and modelling' and 'technology has the potential to improve assessment and feedback'.	2, 4
	This resource enables teachers to provide pupils with targeted question sets that both consolidate learning while providing high levels of challenge using an engaging medium that pupils respond to positively. This year (2024/2025), there is an add-on homework facility furthering the impact	
Purchase of high quality books for individual reading	that this learning tool can have. To supplement the success of Read Write inc in KS1 and the Power of Reading approach, the purchase of Collins Big Cat books will provide high quality books matched appropriately to reading age. Books will be purchased for both KS1 and KS2 classrooms. Dictionaries and Thesauri will be restocked.	1
Annual subscription to Sonar Tracker by Juniper	The annual subscription to Sonar Tracker by Juniper will enable efficient and versatile tracking of attainment and progress of whole school, classes, year groups and specific pupil groups. This online platform will inform decisions about teaching strategies and interventions.	2

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

## Budgeted cost: £58,135

Activity	Evidence that supports this approach	Challenge number(s) addressed
Employ an attendance officer.	(Implemented through close coordination between the safeguarding, attendance and leaders within the school.)	3
A Star Attendance System	The software is a comprehensive solution to attendance monitoring,	3

	tracking, intervention and reporting. It is fully customisable.	
Utilise a pastoral team.	We aim to foster a child's academic development and emotional well-being both at home and at school. The focus of the pastoral team is on early preventative intervention, which often operates below the threshold that triggers specialist involvement. This may involve running parenting courses or helping parents to support their child through key transition periods such as the move from primary school to secondary school.	3,4,5
To have a bespoke response for less advantaged pupils with attendance issues.	For families who have barriers to good attendance, there are plans in place that seek to overcome and provide a way forward to addressing their issues. These include potential use of taxi services and subsidising the after school club.	3
Further develop the school's commitment to rewarding good attendance.	Reward systems are used to encourage regular attendance. This is celebrated in the whole school assembly every Friday.	3
Foster character development and resilience. Use PASS survey to analyse attitude to self and school.	Fostering character development and resilience enables pupils to perform as their emotional and rational minds are working in harmony. The school's Moments of Triumph initiative is a character development programme designed to achieve this goal.	5
Contingency fund for acute issues to include subsidised visits and visitors.	Less advantaged pupils will be assisted with the cost of school trips; in particular, this will enable them to take part fully in residential trips. We have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified.	5

Total budgeted cost: £139,844

# Part B: Review of outcomes in the previous academic year

## Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

#### Attendance for 2023 / 2024

Percentage Attendance Figures for 4/9/2023 – 19/7/2024

	All	Rec	1	2	3	4	5	6
Less adv	88.8	85.6	87.9	90.2	84.4	88.9	95.3	86.6
adv	94.8	93.6	95.4	94.5	96.2	93.9	95.0	95.1
Gap	4.0	8.0	7.5	4.3	11.8	4.0	-0.3	9.5

Pre-covid, the school's attendance figures had been better than the national average but, in line with the national trend, current attendance for all pupil groups has not reached pre-covid levels. There has been a marginal year-on-year increase in attendance levels over the last three years. The school continues to tackle barriers to attendance.

### <u>EYFS</u>

Attainment (GLD) 2024			
	2024 PPG	2024 Non-PPG	
Number of Pupils	7	38	
% Word Reading	43%	74%	
% Writing	29%	62%	
% Number	43%	79%	

#### KS1 Phonics Screening

Year 1 Phonics			
%	All (59)	Less Adv (7)	Adv (52)
RPS	66.1%	57.1%	67.3%
32+			
NAT 32+	80.2	68.0%	84.1%

Year 2 Phonics			
%	All (16)	Less Adv (3)	Adv (13)
RPS 32+	66.1%	66.6%	38.4%

#### KS1 Attainment

Attainment 2024					
	2024 PPG	2024 Non-PPG			
Number of Pupils	11	44			
% Expected standard+ Reading	36%	68%			
% Higher standard Reading	0%	18%			
Scaled Score Reading	94.9	102.4			
% Higher standard Writing	0%	0%			
% Expected standard+ Maths	36%	59%			
% Higher standard Maths	0%	9%			
Scaled Score Maths	95.5	100.7			

The school is sharing good practice in KS2 reading and writing (developing and planning Opening Doors units) adapted to the needs of KS1. Significant changes are been made to the KS1 Curriculum; Continuous Provision (opportunities within the curriculum for pupils to develop and apply skills through choice and providing greater autonomy in how they learn) is being developed in Year 1 to provide key hands-on experiences to support and develop children's understanding. This significant pedagogical change will enable children to become more independent & creative learners.

#### KS2 Attainment

Attainment 2024				
	2024 PPG	2024 Non-PPG		
Number of Pupils	24	36		
% Expected standard+ Reading	63%	67%		
% Higher standard Reading	4%	11%		
Scaled Score Reading	101.2	102.9		
% Expected standard+ Writing	29%	64%		
% Higher standard Writing	0%	8%		
% Expected standard+ Maths	38%	69%		
% Higher standard Maths	4%	28%		
Scaled Score Maths	97.4	104.3		
% Expected standard+ Grammar, Punctuation & Spelling	71%	75%		
% Higher standard Grammar, Punctuation & Spelling	8%	33%		
Scaled Score Grammar, Punctuation & Spelling	102.8	105.7		

Although the attainment gap has narrowed significantly in reading and GPS, there is still a notable difference in both GDS and EXS between children in receipt of the pupil premium grant compared to their peers in writing and maths. To ensure this gap minimises, leaders will work closely with the KS2 and the Year 6 team to secure equitable outcomes for all. We have also drawn on school data to assess wider issues impacting the performance of pupils who attract the pupil premium grant, including analysing attendance and well-being.

#### **Multiplication Tables Check 2024**

Full marks for whole cohort: 20/55 (36%)

20+ marks for whole cohort: 41/61 (67%)

Non Da pupils: 7 out of 42 scored 25/25; 17 out of 42 scored 20+; average score – 20.5

Less advantaged: 2 out of 10 scored 25/25; 4 out of 10 scored 20+; average score - 16.3 (skewed down by 2 SEND pupils - average without these pupils is 20.0

## **Externally provided programmes**

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England
